

Town-by-Town Snapshot

Here are the numbers of referrals from each Connecticut town from July 1, 2013 through June 30, 2014 (State FY14) and the number of children in each town who were eligible at any point during the year. Provisional birth data from the CT Department of Public Health for calendar year 2013 are also provided as a context for consideration of the Birth to Three numbers.

Town-by-Town Snapshot, continued

NOTE: An infant can be referred within days of being born and can continue to be eligible until their third birthday – almost three full years. Since this table is only a one-year snapshot, many towns will have more children eligible than were referred because they were referred in a previous year.

A child that was eligible in FY14 could have been born in 2014, 2013, 2012 or 2011.
